NEW TORO® VISTA®

A Total Solutions Provider

From sports fields and wide-open spaces, to parks, picnic areas, gardens, and playgrounds, maintaining a variety of public spaces requires a range of multi-purpose equipment that is versatile and reliable.

In business for over 45 years, Turf Care is one of the largest Canadian distributors of new and pre-owned natural and synthetic turf equipment, irrigation systems, golf cars, parts and accessories. With 6 locations across Ontario and Quebec, we are proud to serve municipalities, provincial and national parks, universities, colleges, and others in keeping their grounds and sports fields in top shape.

As the exclusive distributor of Toro in Eastern Canada, we carry a full line of state-of-the-art Toro mowers, utility vehicles, application, cultivation, and snow removal equipment. We're also proud to represent a wide range of other world-class brands.

We strive to provide our customers with a **Total Solutions Package** by offering a dedicated team of Sports field & Grounds sales specialists, factory-trained in-house and mobile service technicians, alongside a team of bilingual parts/customer service agents.

Understanding the importance of parts to your organization, we offer next day shipments in most areas, with a large inventory of in-stock items and a 24/7 on-line portal.

We are also pleased to offer in-house financing with a wide range of solutions to help you acquire the equipment and services you need.

Utility Vehicles & General Maintenance

Vehicles that get the work done

Vista

Available in 4, 6, and 8 passenger models, Vista's polar white body and assortment of accessories allow for easy customization no matter the venue.

MADE TO MOVE.

UTX Series

A 4-wheel drive utility vehicle built to stand up to the toughest tests without compromising performance. With standard commercial-grade components, the highest payload in its class, and a proprietary speed control system, designed for the rigors of a long work week.

WORKMAN

toro.com

Outcross 9060

Performs the tough functions of a tractor and a utility vehicle combined without tearing the turf.

MDX Series

An all-purpose work vehicle with a wide go-over-the-curb stance. Available in diesel and gas.

HD Series - 2WD & 4WD

For the toughest jobs. Up to 3,300 pound capacity.

GTX Series

Fits on narrow paths and endlessly adaptable to the day's jobs, offered in 2, 4 or 6 seat options and EFI gasoline, 48-volt AC, or lithium-ion power.

Electric

**Greater Control
of Your Equipment
and Your Business.**

revolution.toro.com

Toro Revolution Mowers

Toro's new Revolution Series products are true commercial-grade equipment designed for professional use. Featuring Horizon™ Technologies, the Revolution Series provides you with a smarter, more connected fleet

that makes your operation more efficient than ever before. With all-day runtime from the Toro developed HyperCell™ battery system, you can expect to power through your day, every day.

TORO.

Electric Area Mowers

Z Master® Revolution Series

Developed by Toro, industry-leading HyperCell batteries deliver superior power that devours the lushest of lawns all day long...without bogging down!

Revolution Series MyRIDE® 60 in.

Optimize machine feel and response, including speed control, with patent-pending software controls.

GrandStand® Revolution Series

Eco-friendly and quiet design delivers lower cost over the machine's lifetime. It provides you with a smart, connected fleet that makes your operation more efficient than ever before. With all-day runtime from the Toro developed HyperCell battery system, you can expect to power through your day, every day.

NEW

TORO Handheld Revolution

Power For Every Professional

Toro's 60V power source runs on our Flex-Force Power System® and works with the entire line of 60V Revolution commercial grade handheld tools. The backpack, available as a power source for the leaf blower, and string and hedge trimmers, is built for comfort and ready to keep jobs moving all day. It has the capacity for you to swap batteries, so when one battery is done, you're not. 60V power comes to you fast: just 50 minutes to charge the largest battery to 100% and easily outpacing the charging speed of larger, lower voltage batteries.

NEW

Mowing

ECHO Robotics Autonomous Mowers

echorobotics.com

Robotic TurfMower Series

The self-charging robotic mower can be operated 24/7, day or night, rain, or shine, boasting 8x lower energy costs than traditional mowers. In addition to the reduced environmental impact, energy, and labour savings, the mower also promotes greatly improved turf health with reduced compaction and a first-cut appearance all the time. Monitor field conditions remotely with the mobile friendly app.

NEW

TORO

Z Master 7500-D 144"

Looking for a workhorse mower that's easy to operate and gets the job done faster? The highly productive 144-inch deck design folds up neatly for easy transport, then folds down to handle your biggest jobs — in half the time of comparable mowers.

NEW

TORO

Large Area Mowers

toro.com

Groundsmaster 5900/5910

Mow 18 acres/hour with a 16' (4.88 m) width of cut and precise maneuverability.

Groundsmaster 4000-D/4100-D

Variable 5', 8' and 11' width of cut for narrow to wide open spaces.

Groundsmaster 1200 Pull-Behind

Mow up to 8.3 acres/hour with 12-foot-wide pull-behind productivity.

TORO Small Area Mowers

toro.com

Groundsmaster 3200/3300

Maneuverable, out-front ease with innovative tilt-up deck.

ProLine H800 Direct Collect Mower

A direct-collect, out-front rotary mower with high-lift dump mechanism for unmatched collection performance.

Z Master 7500-D 60-96" Zero-turn Rotary

All the speed and maneuverability of a zero-turn, along with the superior quality of cut you expect from Toro.

NEW

Groundsmaster 7210-D

Convert from mowing to snow removal in less than 4 hours with the PolarTrac® system.

Brush Mowers

ventrac.com

HQ682 Tough Cut Mower

Ventrac's Tough Cut mower is one of more than 30 commercial-grade attachments. Easily clear thick weeds, tall grass, brush, and small saplings up to 1" in diameter with Tough Cut's front-mounted, flip-up deck.

harperturfequipment.com

Slope Mowers

ATM 72LC Hillside Mower

A safer solution for mowing slopes, Harper's Hillside Mower is self-levelling, keeping operator and engine upright on hills up to 34 degrees. The two halves of the 72-inch deck float independently for a quality cut in ditches and rough terrain.

Groundsmaster 3200/3300 with Flail Mowing Deck

Maneuverable, out-front ease with innovative tilt-up deck. Rotary and Fine Cut Flail mowing decks available.

NEW

TORO. Flail Mowers

Cultivation | Compaction relief for safer fields

TORO Aerators

toro.com

NEW

ProCore 648S Walk-Behind Aerator

With improved ergonomics, the ProCore 648s allows for single-handed operation. Hole spacing and true tine depth are now set and saved in the InfoCenter. The onboard controller is continuously monitoring key operating parameters to improve after aeration turf condition and allow the operator to easily target coring head drop and raise. A tighter turning radius with reduced wheel scrubbing and the ability to easily increase speed during turns increases productivity.

ProCore 1298 Large Area Aerator

Get fields in shape faster, aerating up to 2.3 acres per hour with the 98" (248.9 cm) coring width and dual, precision-balanced coring heads. Clean, precise hole spacing means quicker return to play.

ProCore SR72 Deep-Tine Aerator

Alleviate subsurface soil compaction, helping to create an environment for turf to thrive.

imants® Decompactors & Fraise Mowers

imants.com

Shockwave Linear Decompactor

Reputed to be the world's fastest PTO driven rotary, linear decompactors, the **ShockWave 155** (for fine turf & sports fields) and **ShockWave 275** (heavy-duty decompaction for outfield turf) are designed to revitalize heavy wear areas by relieving soil compaction, improving aeration and removing surface water. With working depths ranging from 4.5" - 15", Shockwave provides maximum surface decompaction with minimal surface disruption.

Koro FTM 2000 & 2500 Fraise Mower

Heavy-duty fraise mowers for surface restoration of sports fields. Remove unwanted surface matter such as poa annua, thatch, weeds, or the entire surface to a depth of 50mm. A side arm conveyor removes debris directly into a trailer, leaving a level, even surface.

BULLS-EYE™ NuSurface™ Fraise Mower

The Bullseye NuSurface 470 & 790 are used to fraise mow, flail mow, level, de-thatch, and renovate turf areas, as well as harvest sprigs. Ideal for use on golf courses and sports fields and are quickly becoming the go-to grass removal tool for fast and efficient resurfacing projects. It's rotary action removes material and transfers it onto a conveyor system for disposal, leaving behind a smooth surface, immediately ready for sod or seeding.

toro.com/bullseye

Verticutters & Dethatchers

MT200 Flex-Verticutter

Whether a scarify job is needed or just a light grooming treatment, the MT200 is the ideal solution for sport fields. 3 mechanically-driven heads mount behind your tractor with flexible suspension allowing the operator to make curves and use the verticutter in undulated areas.

maredo-bv.com

GT214 VibeDisc-Slicer

Designed to cut lateral growth and roots cleanly, the Maredo GT214 vibrating slicer fits your triplex greens mower, turning it into a slicer.

Seeders

BULLSEYE™ AccuraSeed 620

Fast, efficient overseeding with great results. Grass seed is planted directly into the ground, providing outstanding seed-to-soil contact and germination. Floating twin disc planting system opens a slit for seed placement allowing for multiple passes without disrupting dormant or winter damaged surfaces.

toro.com/bullseye

RapidSeed 430/590

Ideal for sports fields and golf courses where economy and random seed dispersement is important. Available in two widths, there is a unit for tighter, more undulating areas or larger areas.

Vredo Overseeder - Sport Series

Prevent expensive grass seed waste - the Vredo Direct Overseeder makes every seed count! By sowing seed in the ground instead of broadcasting on top, you make the best use of your costly grass seed with a 96% seed to plant conversion. Available in towed or 3-point.

vredo.com

Overseeder - DZ5 Single Compact

A unique and versatile overseeder that can be used in a wide range of situations. An all-rounder featuring a single row of discs giving row spacing of 70 mm. This gives the machine the perfect weight to work width ratio, allows it to be mounted on tractors with a relatively low lifting capacity and comes at an attractive price.

Turf Buddy

The Vredo Turf Buddy is a compact hand-pushed seeder with the double-disc system. The buddy is essential for each greenkeeper, field manager, gardener etc. It's perfect in treating small spots, corners, borders, pitching spots or when changing holes in golf.

Overseeder - DZ Turf-Fix

The Vredo Turf-Fix is a super compact, accurate, and efficient disc seeder designed for inter-seeding into prepared seedbeds or existing stands of turf. At an approximate spacing of 1 3/8", seed is placed in a V-shaped slit at a controllable depth of 3/16" to 1" deep, directly in contact with the soil for maximum germination rate.

Application & Debris Management

TORO Top Dressers

MH-400 Broadcast Top Dresser

The MH-400 is ideal for topdressing large areas, applying mulch and crumb rubber, and transporting a variety of materials. Featuring a 4 cubic yards (3.06 cubic meters) hopper capacity and an application width - up to 40 ft (12.2 m), the MH-400's efficiency will help you reduce labor, save time, and cuts operating costs.

toro.com

Spreaders

lelyturf.com

Ground Driven WFR Spreader

The land wheel driven, W broadcast spreader is an accurate way to spread fertilizer, lime, turf seed, grains and sand. Land wheels are fitted with lawn flotation tires. Hopper capacity of 550 lbs* (350 kgs).

Sprayers

Multi Pro 5800 Turf Sprayer

Featuring a 300 gal (1,136 L) tank, six diaphragm pump, powerful 50 hp Kubota engine, rugged triangular spray boom, and center control console. Aggressive agitation and faster response times deliver consistent and accurate spray rates.

TORO Debris Blowers

Pro Force Turbine Debris Blower

Pro Force's single nozzle turbine provides the power to remove grass clippings, leaves, twigs, aeration cores, or other unwanted debris from sports fields, and makes quick work of clearing hard surface areas such as park trails and parking lots. Wireless remote control provides complete operational control at your fingertips plus Pro Force's heavy-duty trailer and tow hitch can accommodate different towing utility vehicles.

VENTRAC Leaf Blower KA160

The revolutionary KA160 Power Blower features a vertical shaft design that delivers a powerful, yet quiet performance. The blower can be used to remove leaves, light snow, water, etc. The blower housing can be rotated 180 degrees with the standard hydraulic motor. This allows the operator to move debris in the desired direction without hindering operation. Two gauge wheels maintain a consistent distance from the surface.

ventrac.com

TORO STX-38 Stump Grinder

Toro® STX-38 Stump Grinder is built for outstanding durability in the toughest conditions. Fully hydraulic operation means no chance of expensive belts breaking or slipping, and no tension adjustments. The Intelli-Sweep® feature automatically slows the sweep speed of the cutting head based on the load of the wheel, so heavy cutting loads won't bog down the engine. And with easy-to-use TX-style controls and tracks for maneuverability and stability, the STX-38 is extremely operator-friendly. The STX-38's electronic fuel injection engine provides less maintenance, easier starting, and improved performance.

toro.com

NEW

Harper Hawke Self-Propelled Turf Sweeper

Designed for superior pick-up and true one-pass performance, the Hawke offers premier results in wet or dry conditions. Cover rough terrain with confidence utilizing the only four-wheel drive system in the market.

TV40 Turbo Vac/Sweeper

Powerful pick-up performance from the cleanest and most cost-effective vacuum on the market, the TV40 is the popular choice to clear leaves and debris. This tow-behind vacuum is ideal for artificial turf, including those with granular rubber pellets.

TV60 RE Vac/Sweeper

Designed for large area debris removal, the TV60 RE is the perfect solution for picking up grass, leaves, trash and thatch. The unique Recirculating Air System minimizes dust for a clean sweeping environment. Clean, quiet and efficient, the TV60 RE is a polished ride from the first pass to the last.

Grooming & Rolling

TORO Infield Groomers

toro.com

Field Pro 6040

NEW

This workhorse features efficient operation with the innovative MultiTool™, ergonomic operator comfort, and incredible versatility in attachment options. The dedicated platform produces a consistent, superior infield playing surface regardless of starting conditions. Precision engineering means precise results.

Sand Pro 2040Z

A unique zero turn mechanical infield groomer that delivers unmatched maneuverability and productivity. With its exclusive nail drag/flex groomer, it's the perfect solution for daily infield grooming.

5040

3040

Sand Pro 5040 & 3040

With the exclusive Quick Attach System (QASTM) offering tool-free, quick attachment change outs and over 20 useful attachments, the Sand Pro 3040 & 5040 are versatile utility vehicles with many uses on and off the field.

ventrac.com

DGDR Ballpark Groomer & Renovator

While the Ballpark Groomer and Renovator is capable of properly taking care of all the infield needs, the advantages don't stop there. Using the tractor's versatility, grounds crews can hook up to other attachments and accomplish all of the other mowing, soil preparation, and cleanup needs at the facility. Ventrac is simply the best, most economical solution to maintaining a beautiful and functional ballpark.

Rollers

marketfarmequipment.com

Athletic Field Roller

The Market Athletic Field Roller is essential for a complete field maintenance plan. Rolling can be valuable in improving the playability and appearance of sports fields by carefully firming and smoothing for better surface stability or "footing" on the playing surface.

Synthetic Turf Maintenance

toro.com/bullseye

FieldCombo 770 Synthetic Turf Groomer **NEW**

To brush, loosen and decompact the hardest infill, the Bullseye FieldCombo 770 is equipped with a variety of customizable tools to meet your needs and ensure an improved playing surface and exceptional field appearance.

Quickgroom 550

A towable grooming machine designed to work on both natural and synthetic turf. Can be towed by any utility vehicle, has quick and easy adjustments, and has its drive components protected inside the durable frame.

Quickgroom 700

Designed to redistribute topdressing material side to side while standing up and grooming each grass blade or turf fiber for an attractive and realistic finish to both natural and synthetic turf.

Quickgroom 710

Designed to groom, and evenly incorporate topdressing and infill materials on natural or synthetic turf quickly and efficiently.

FieldFill 660

Designed to quickly work even the heaviest amounts of infill materials into the field surface. The 660 is equipped to loosen, decompact, incorporate and smooth the infill and groom the surface for great results in a single pass.

FieldClean 580

A row of spring tines loosen infill materials, lift the debris and top layer of infill material onto the adjustable angle vibrating sieve, allowing infill material to return to the field surface while debris, dust, and hair are collected.

FieldMagnet 600

Heavy-duty magnetic sweeper that is designed with a robust inner-steel structure providing durability and also attaining the highest power available from this type of tow-behind magnet.

FieldSweep 660

Ground-driven surface debris removal and grooming tool designed primarily for synthetic turf fields.

wiedenmannusa.com

100

160

Terra Clean 100 & 160

For the quick, efficient collection of surface debris and intensive cleaning and dust removal of filled artificial turf surfaces.

Terra Groom

On artificial turf, the Terra Groom is used to brush in granulate and straighten up the turf fibers. The infill material separates the fibers, which helps to absorb impacts and reduces the risk of injuries.

Terra Brush

Four rows of special brushes ensure even distribution of sand or rubber infill, lengthwise and crosswise. The basic unit can also be fitted with a special brush for loosening rubber infill.

Terra Rake

Dethatching rake suitable for loosening infill on artificial turf fields. 4 rows of dethatching spring tines and a working width from 67" to 181".

Super 600

The universal turf maintenance machine for year-round intensive use on natural & synthetic turf including athletic fields and municipal grounds. Whether verticutting, flail mowing, fraise mowing, or collecting debris, the SUPER 600 is the perfect machine. Also includes high dump feature.

The most comprehensive range of Compact Utility Loaders available.

Toro Dingo is the most comprehensive range of Compact Utility Loaders and attachments available in the market. With wheeled, tracked and electric options – plus a wide choice of attachments – you can find the right machine for your needs.

NEW

toro.com

TORO Compact Utility Loaders

Dingo® TX 1000 Track Loader, Wide

Designed with vertical lift loader arms, its 1,000-lb. rated operating capacity delivers category-crushing performance that's an industry game-changer. The Dingo TX 1000 also offers increased reach at full height for maximum jobsite productivity. And speaking of productivity, an 81" (206 cm) hinge pin height allows the arms to clear the side of a 30-yard dumpster or one-ton truck. This lightweight, maneuverable machine packs unmatched strength and reach in a compact package for the ultimate working advantage.

toro.com

TORO Compact Utility Loaders

Dingo® TX 525 Track Loader, Wide

The TX-525 offers extra torque, longer engine life, and increased hydraulic flow for enhanced performance of ground-engaging attachments.

Dingo® TX 1300 Track Loader

Ideal for landscape, hardscape and tree care jobs, the TX 1300 brings a new combination of power, reach and convenient control to the Toro® Dingo® lineup. It's the user-friendly workhorse you need to save time. You can operate the Toro patented traction controls with one hand and thumb-controlled telescoping extension and auxiliary functions (in the loader arm control) with the other to pick, place and dump materials with ease all day long.

NEW

eDingo® 500 Electric Mini Skid Steer

Ideal for indoor construction and demolition, the eDingo 500 is powered by the HyperCell® Power System, a battery technology developed by Toro to match the power of traditional internal combustion powered products yet have zero exhaust emissions and less noise.

toro.com

Mud Buggy

The original Toro® Mud Buggy® brings power, versatility, and productivity to any job site - use it to transport and pour wet concrete, haul materials, clean up job sites, and much more.

Weed Control & Outdoor Cleaning

| Herbicide free & eco-friendly

weedingtech.com

Foamstream Herbicide Free Weed Control & Cleaning Solution

Are you looking for an environmentally friendly, certified organic weed control solution that actually works? Foamstream by Weedingtech has quickly established itself as a world leader in herbicide-free weed, moss, and algae control, as well as outdoor cleaning and sanitization. The Foamstream units are compact, cost-effective, multi-functional and easy to operate. The patented biodegradable foam is made from 100% organic materials making it completely safe for use in all outdoor spaces including sensitive environments. Foamstream requires 50% fewer treatment cycles than alternative solutions, with a far smaller labour investment, and has an impressive 95% kill rate with lasting results.

Snow Removal
