NEW

GROUNDMASTER® e3300

A Total Solutions Provider

TURF CARE
Helping your business grow.

From sports fields and wide-open spaces, to parks, picnic areas, gardens, and playgrounds, maintaining a variety of public spaces requires a range of multi-purpose equipment that is versatile and reliable.

In business for over 50 years, Turf Care is one of the largest Canadian distributors of new and pre-owned natural and synthetic turf equipment, irrigation systems, golf cars, parts and accessories. With 6 locations across Ontario and Quebec, we are proud to serve municipalities, provincial and national parks, universities, colleges, and others in keeping their grounds and sports fields in top shape.

As the exclusive distributor of Toro in Eastern Canada, we carry a full line of state-of-the-art Toro mowers, utility vehicles, application, cultivation, and snow removal equipment. We're also proud to represent a wide range of other world-class brands.

We strive to provide our customers with a **Total Solutions Package** by offering a dedicated team of Sports field & Grounds sales specialists, factory-trained in-house and mobile service technicians, alongside a team of bilingual parts/customer service agents.

Understanding the importance of parts to your organization, we offer next day shipments in most areas, with a large inventory of in-stock items and a 24/7 on-line portal.

We are also pleased to offer in-house financing with a wide range of solutions to help you acquire the equipment and services you need.

Utility Vehicles & General Maintenance

Vehicles that get the work done

MDX Lithium

The Lithium Powered MDX utilizes Toro's patent-pending Lithium-ion HyperCell® batteries that provide extended battery power for consistent performance over the life of the vehicle. The MDX Lithium quickly charges overnight, keeping you running all day long

UTX Series

A 4-wheel drive utility vehicle built to stand up to the toughest tests without compromising performance. With standard commercial-grade components, the highest payload in its class, and a proprietary speed control system, designed for the rigors of a long work week.

TORO VEHICLES

Vista

Available in 4, 6, and 8 passenger models, Vista's polar white body and assortment of accessories allow for easy customization no matter the venue.

[toro.com](https://www.toro.com)

MDX Series

An all-purpose work vehicle with a wide go-over-the-curb stance. Available in diesel and gas.

HD Series - 2WD & 4WD

For the toughest jobs. Up to 3,300 pound capacity.

GTX Series

Fits on narrow paths and endlessly adaptable to the day's jobs, offered in 2, 4 or 6 seat options and EFI gasoline, 48-volt AC, or lithium-ion power.

TORO**Electric**

sites.toro.com

NEW

The Next Groundsmaster eVolution.

The all-new Groundsmaster e3300 can be configured with up to 17 HyperCell® batteries for all-day runtime in demanding conditions. Smart Power® mode optimizes power consumption by continuously and efficiently providing ample cutting power without bogging down. Battery reserve setting ensures plenty of power to return to the recharging station. The on-board 3.3kW charger replenishes the batteries overnight, ready to tackle another day.

TORO

Electric Area Mowers

Z Master® Revolution Series

Developed by Toro, industry-leading HyperCell batteries deliver superior power that devours the lushest of lawns all day long... without bogging down!

Revolution Series MyRIDE® 60 in.

Optimize machine feel and response, including speed control, with patent-pending software controls.

**TORO**

Handheld Revolution

Power For Every Professional

Toro's 60V Flex-Force Power System® powers the full line of 60V Revolution commercial handheld tools. The backpack power source, compatible with the leaf blower, string trimmer, and hedge trimmer, is designed for all-day comfort and productivity. Swap batteries easily to keep working—charging to 100% in just 50 minutes, faster than larger, lower-voltage systems.

Autonomous Mowing

TORO

Turf Pro™ 500/300

NEW

Intelligent productivity

From performance and cost savings to more time to focus on the bottom line, the Toro Turf Pro puts innovation and efficiency at your command. With GPS RTK technology, the Turf Pro navigates with a 0.75–1.25" (2–3 cm) level precision, enabling it to mow a consistent pattern with a minimal overlap. The mobile app allows you to remotely control your robot or fleet of robots. Start or stop your machines at any time from anywhere, receive alerts and automate certain processes.

toro.com

ACCURATE CONTROL

GNSS 4G RTK technology, enables mowing a consistent pattern with minimal overlap. Accuracy maintains sharp perimeters and borders.

FLEET MANAGEMENT

Wireless monitoring and control of your units through a computer or mobile phone.

EFFICIENT OPERATION

Minimal input required once mapped and set up. Mow up to 18.5 acres (75,000 m²)* three times a week with the Turf Pro 500, and up to 11 acres (44,515 m²)* three times a week with the Turf Pro 300.

TRACTION

Easily mows slopes: Turf Pro 500: 30% (17°) Turf Pro 500S: 45% (24°) Turf Pro 300: 35% (19.5°)

QUIET OPERATION Electric drivetrain makes for minimal noise disruption on and around the property. Dual electric drive motors and is self-charging.

The Toro logo, consisting of the word "TORO" in white capital letters inside a red rounded rectangle.

Groundsmaster 5910

Tasked with maintaining more parks and sports fields with no additional workers or budget? The Groundsmaster® 5910 mower can mow over 20.9 acres /hour (8.5 hectares/hour) using only one operator!

The Toro logo, consisting of the word "TORO" in white capital letters inside a red rounded rectangle.

Large Area Mowers

toro.com

Z Master 7500-D 144"

The highly productive 144-inch deck design folds up neatly for easy transport, then folds down to handle your biggest jobs — in half the time of comparable mowers.

Groundsmaster 4000-D/4100-D

Variable 5', 8' and 11' width of cut for narrow to wide open spaces.

Groundsmaster 1200 Pull-Behind

Mow up to 8.3 acres/hour with 12-foot-wide pull-behind productivity.

RMX G2 Rigid Deck Roller Mowers

Delivers a premium, striped finish with robust performance—perfect for sports fields and grounds.

TORO Small Area Mowers

toro.com

Groundsmaster 3200/3300

Manoeuvrable, out-front ease with innovative tilt-up deck.

ProLine H800 Direct Collect Mower

A direct-collect, out-front rotary mower with high-lift dump mechanism for unmatched collection performance.

Z Master 7500-D 60-144" Zero-turn Rotary

All the speed and manoeuvrability of a zero-turn, along with the superior quality of cut you expect from Toro.

Groundsmaster 7200-D with Polar Trac

Convert from mowing to snow removal in less than 4 hours with the PolarTrac® system.

NEW 45RC

The Ventrac 45RC offers dual operation modes to meet the operator's needs. Intuitive joystick controls and an industrial-grade remote ensure precision and durability in demanding environments. This advanced system prioritizes both durability and operator comfort, enhancing the overall remote mowing experience.

ventrac.com

Redefining Slope Mowing

Ventrac has pushed the limits of the renowned 4000 series slope mower and has developed the all-new Ventrac 45RC. Tackle steep terrain - whether you are in the seat operating or up to 500 feet away with the remote control.

MJ840 Mowers - Contour Deck

The MJ840 offers an 83" cut with three floating decks for superior contouring, full rear rollers for clean striping, rear discharge, and an easy flip-up deck design.

KY400 Trencher

The KY400 Trencher cuts up to 40" deep and 5.5" wide, featuring dual Push-N-Pull cylinders for precise boom control. Paired with the VENTRAC 45RC, it delivers powerful trenching in tight areas while minimizing turf disturbance.

KJ520 Broom

The KJ520 Narrow Broom handles snow, debris, and thatch on 48" walkways, with hydraulic lift and angle via S.D.L.A. Controls. An optional actuator lets operators adjust broom speed and direction directly from the seat.

Brush Mowers

HQ682 Tough Cut Mower

Ventrac's Tough Cut mower is one of more than 30 commercial-grade attachments. Easily clear thick weeds, tall grass, brush, and small saplings up to 1" in diameter with Tough Cut's front-mounted, flip-up deck.

MZ480 Brush Cutter

Ventrac MZ480 Brush Cutter, designed for serious brush mowing. Using centrifugal force, its heavy-duty spindle drives two 0.5" thick break-away blades, delivering unmatched cutting performance. A hinged front gate allows dense brush—up to 3" in diameter—to feed directly into the blades, making it the most aggressive brush-cutting deck in the Ventrac lineup.

MWMY Mowers - Flail

Ventrac's new Fine Cut and Fast Cut Flail Mowers deliver powerful performance in tough, overgrown areas, turning dense vegetation into a clean, finished cut. With two deck widths and specialized knife options, they offer versatility, efficiency, and exceptional results on any property.

NEW

Cultivation | Compaction relief for safer fields

Aerators

toro.com

ProCore 1298 Large Area Aerator

The most productive and durable large area aerator available today. Get fields in shape faster, aerating up to 2.3 acres per hour with the 98" (248.9 cm) coring width and dual, precision-balanced coring heads. Clean, precise hole spacing means quicker return to play.

ProCore 648S Walk-Behind Aerator

With improved ergonomics, the ProCore 648s allows for single-handed operation. Hole spacing and true tine depth are now set and saved in the InfoCenter. The onboard controller is continuously monitoring key operating parameters to improve after aeration turf condition and allow the operator to easily target coring head drop and raise. A tighter turning radius with reduced wheel scrubbing and the ability to easily increase speed during turns increases productivity.

ProCore SR72 Deep-Tine Aerator

Alleviate subsurface soil compaction, helping to create an environment for turf to thrive.

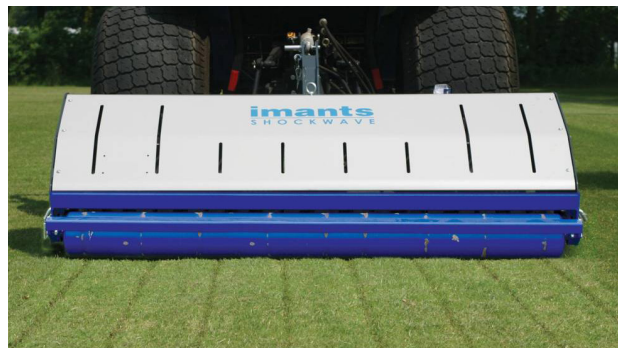

imants® Decompactors & Fraise Mowers

imants.com

Shockwave Linear Decompactor

Reputed to be the world's fastest PTO driven rotary, linear decompactors, the **ShockWave 155** (for fine turf & sports fields) and **ShockWave 275** (heavy-duty decompaction for outfield turf) are designed to revitalize heavy wear areas by relieving soil compaction, improving aeration and removing surface water. With working depths ranging from 4.5" - 15", Shockwave provides maximum surface decompaction with minimal surface disruption.

Koro FTM 2000 & 2500 Fraise Mower

Heavy-duty fraise mowers for surface restoration of sports fields. Remove unwanted surface matter such as poa annua, thatch, weeds, or the entire surface to a depth of 50mm. A side arm conveyor removes debris directly into a trailer, leaving a level, even surface.

Verticutters & Dethatchers

MT200 Flex-Verticutter

Whether a scarify job is needed or just a light grooming treatment, the MT200 is the ideal solution for sport fields. 3 mechanically-driven heads mount behind your tractor with flexible suspension allowing the operator to make curves and use the verticutter in undulated areas.

maredo-bv.com

GT214 VibeDisc-Slicer

Designed to cut lateral growth and roots cleanly, the Maredo GT214 vibrating slicer fits your triplex greens mower, turning it into a slicer.

Seeders

BULLSEYE™ RapidSeed 590

The Bullseye RapidSeed™ 590 is ideal for sports fields and golf courses where economy and clean, random seed dispersal are essential. It delivers fast, precise seeding with excellent accuracy across all turf varieties, including fine bentgrass. Its low-maintenance design reduces operating costs, while easy rate adjustments and fewer required refills help save time and money. Random seed distribution eliminates drill lines, ensuring a smooth, consistent finish on every pass.

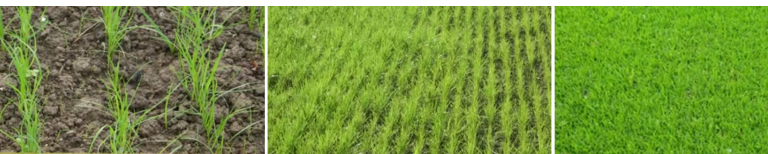

toro.com/bullseye

Vredo™ Overseeder - Sport Series

Prevent expensive grass seed waste - the Vredo Direct Overseeder makes every seed count! By sowing seed in the ground instead of broadcasting on top, you make the best use of your costly grass seed with a 96% seed to plant conversion. Available in towed or 3-point.

Overseeder - DZ5 Single Compact

A unique and versatile overseeder that can be used in a wide range of situations. An all-rounder featuring a single row of discs giving row spacing of 70 mm. This gives the machine the perfect weight to work width ratio, allows it to be mounted on tractors with a relatively low lifting capacity and comes at an attractive price.

Turf Buddy

The Vredo Turf Buddy is a compact hand-pushed seeder with the double-disc system. The buddy is essential for each greenkeeper, field manager, gardener etc. It's perfect in treating small spots, corners, borders, pitching spots or when changing holes in golf.

Overseeder - DZ Turf-Fix

The Vredo Turf-Fix is a super compact, accurate, and efficient disc seeder designed for inter-seeding into prepared seedbeds or existing stands of turf. At an approximate spacing of 1 3/8", seed is placed in a V-shaped slit at a controllable depth of 3/16" to 1" deep, directly in contact with the soil for maximum germination rate.

Application & Debris Management

TORO Sprayers

Multi Pro 5800 with GeoLink® Spray

NEW

Delivers precise, satellite-guided application with no gaps or overlaps. Built-in ExcelaRate® controls ensure consistent, repeatable accuracy for professional-grade turf care.

toro.com

TORO Top Dressers

MH-400 Broadcast Top Dresser

The MH-400 is ideal for topdressing large areas, applying mulch and crumb rubber, and transporting a variety of materials. Featuring a 4 cubic yards (3.06 cubic meters) hopper capacity and an application width - up to 40 ft (12.2 m), the MH-400's efficiency will help you reduce labor, save time, and cuts operating costs.

lelyturf.com

LELY Spreaders

Ground Driven WFR Spreader

The land wheel driven, W broadcast spreader is an accurate way to spread fertilizer, lime, turf seed, grains and sand. Land wheels are fitted with lawn flotation tires. Hopper capacity of 550 lbs* (350 kgs).

TORO Debris Blowers

Pro Force Turbine Debris Blower

Pro Force's single nozzle turbine provides the power to remove grass clippings, leaves, twigs, aeration cores, or other unwanted debris from sports fields, and makes quick work of clearing hard surface areas such as park trails and parking lots. Wireless remote control provides complete operational control at your fingertips plus Pro Force's heavy-duty trailer and tow hitch can accommodate different towing utility vehicles.

VENTRAC Leaf Blower KA160

The revolutionary KA160 Power Blower features a vertical shaft design that delivers a powerful, yet quiet performance. The blower can be used to remove leaves, light snow, water, etc. The blower housing can be rotated 180 degrees with the standard hydraulic motor. This allows the operator to move debris in the desired direction without hindering operation. Two gauge wheels maintain a consistent distance from the surface.

ventrac.com

ET202 Turbine Blower

The Ventrac ET202 makes quick work of any clean up job. The Turbine Blower is designed to blow large volumes of air, and is much quieter than a conventional leaf blower. The ET202 can be used to blow leaves, light snow, and remove debris from sidewalks, parking lots and other areas. The ET202 Turbine Blower's powerful front discharge nozzle can be hydraulically rotated 360 degrees from the comfort of the operator's seat. The front bumper protects the nozzle from damage.

Harper Hawke Self-Propelled Turf Sweeper

Designed for superior pick-up and true one-pass performance, the Hawke offers premier results in wet or dry conditions. Cover rough terrain with confidence utilizing the only four-wheel drive system in the market.

TV40 Turbo Vac/Sweeper

Powerful pick-up performance from the cleanest and most cost-effective vacuum on the market, the TV40 is the popular choice to clear leaves and debris. This tow-behind vacuum is ideal for artificial turf, including those with granular rubber pellets.

TV60 RE Vac/Sweeper

Designed for large area debris removal, the TV60 RE is the perfect solution for picking up grass, leaves, trash and thatch. The unique Recirculating Air System minimizes dust for a clean sweeping environment. Clean, quiet and efficient, the TV60 RE is a polished ride from the first pass to the last.

Dung Beetle PTO

Purpose-built for efficient turf maintenance, the Dung Beetle PTO gives operators total control with fully-castoring rear wheels, a throttle lever, and centrifugal clutch. Soft bristles protect turf while effortlessly collecting grass clippings, autumn leaves, and debris into the hopper for a clean, damage-free finish.

Ball Diamond Grooming

TORO

Infield Groomers

toro.com

Field Pro 6040

This workhorse features efficient operation with the innovative MultiTool™, ergonomic operator comfort, and incredible versatility in attachment options. The dedicated platform produces a consistent, superior infield playing surface regardless of starting conditions. Precision engineering means precise results.

Sand Pro 2040Z

A unique zero turn mechanical infield groomer that delivers unmatched maneuverability and productivity. With its exclusive nail drag/flex groomer, it's the perfect solution for daily infield grooming.

5040

3040

Sand Pro 5040 & 3040

With the exclusive Quick Attach System (QASTM) offering tool-free, quick attachment change outs and over 20 useful attachments, the Sand Pro 3040 & 5040 are versatile utility vehicles with many uses on and off the field.

ventrac.com

DGDR Ballpark Groomer & Renovator

While the Ballpark Groomer and Renovator is capable of properly taking care of all the infield needs, the advantages don't stop there. Using the tractor's versatility, grounds crews can hook up to other attachments and accomplish all of the other mowing, soil preparation, and cleanup needs at the facility. Ventrac is simply the best, most economical solution to maintaining a beautiful and functional ballpark.

Synthetic Turf Maintenance

Preserve and protect your investment.

wiedenmannusa.com

Terra Clean 100 & 160

For the quick, efficient collection of surface debris and intensive cleaning and dust removal of filled artificial turf surfaces.

100

160

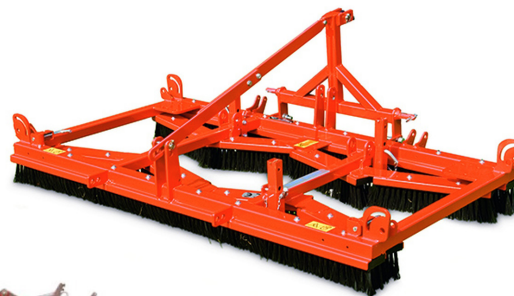

Terra Groom

On artificial turf, the Terra Groom is used to brush in granulate and straighten up the turf fibers. The infill material separates the fibers, which helps to absorb impacts and reduces the risk of injuries.

Terra Brush

Four rows of special brushes ensure even distribution of sand or rubber infill, lengthwise and crosswise. The basic unit can also be fitted with a special brush for loosening rubber infill.

Terra Rake

Dethatching rake suitable for loosening infill on artificial turf fields. 4 rows of dethatching spring tines and a working width from 67" to 181".

Super 600

The universal turf maintenance machine for year-round intensive use on natural & synthetic turf including athletic fields and municipal grounds. Whether verticutting, flail mowing, fraise mowing, or collecting debris, the SUPER 600 is the perfect machine. Also includes high dump feature.

Terra Spike XF 6 / XF 8

The TERRA SPIKE® XF is the king of the deep aerators. It will loosen and aerate your turf at a working speed of up to 6 km/h. Thanks to VibraStop and PowerPack, it is uniquely smooth-running.

TORO Dingo® TX 1300

The Power to Get It Done

Take productivity to the next level with the Toro® Dingo® TX 1300. Powered by a 37 hp Yanmar® Tier IV diesel engine and a 1,300 lb operating capacity, this compact loader delivers big-machine performance in tight spaces.

The exclusive INTELESCOPE® loader arm with SmartLoad adds 26" of reach and a 109" hinge-pin height, making loading trucks and bins effortless. Intuitive one-hand controls and Toro's patented traction system keep operation smooth, fast, and precise.

TORO Compact Utility Loaders

Dingo® TX 1000 Track Loader, Wide

Designed with vertical lift loader arms, its 1,000-lb. rated operating capacity delivers category-crushing performance that's an industry game-changer. The Dingo TX 1000 also offers increased reach at full height for maximum jobsite productivity. And speaking of productivity, an 81" (206 cm) hinge pin height allows the arms to clear the side of a 30-yard dumpster or one-ton truck. This lightweight, maneuverable machine packs unmatched strength and reach in a compact package for the ultimate working advantage.

Dingo® TX 525 Track Loader, Wide

The TX-525 offers extra torque, longer engine life, and increased hydraulic flow for enhanced performance of ground-engaging attachments.

Compact Utility Loaders

STX-38 Stump Grinder

Built for demanding conditions, the STX-38 features a fully hydraulic system — eliminating belts, slippage, and constant adjustments. Intelli-Sweep® technology automatically adjusts cutting speed for smooth, powerful performance, while the tracked design and TX-style controls deliver outstanding stability and ease of use. With an EFI engine for easier starts, less maintenance, and reliable power, the STX-38 makes stump removal fast, efficient, and hassle-free.

eDingo® 500 Electric Mini Skid Steer

Ideal for indoor construction and demolition, the eDingo 500 is powered by the HyperCell® Power System, a battery technology developed by Toro to match the power of traditional internal combustion powered products yet have zero exhaust emissions and less noise.

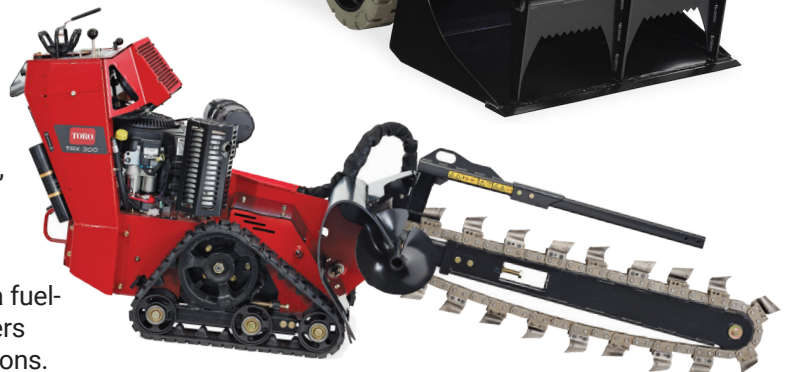

toro.com

TRX-300 Trencher

Experience powerful trenching with enhanced simplicity and efficiency. The TRX-300 features intuitive, streamlined controls for effortless operation and quick learning. Engineered with a reduced component count compared to previous models, it offers simplified maintenance and improved serviceability. Powered by a fuel-efficient 26.5 hp Kohler® EFI engine, the TRX-300 delivers reliable performance for demanding trenching applications.

Mud Buggy

The original Toro® Mud Buggy® brings power, versatility, and productivity to any job site - use it to transport and pour wet concrete, haul materials, clean up job sites, and much more.

Weed Control & Outdoor Cleaning

| Herbicide free & eco-friendly

weedingtech.com

Foamstream Herbicide Free Weed Control & Cleaning Solution

Are you looking for an environmentally friendly, certified organic weed control solution that actually works? Foamstream by Weedingtech has quickly established itself as a world leader in herbicide-free weed, moss, and algae control, as well as outdoor cleaning and sanitization. The Foamstream units are compact, cost-effective, multi-functional and easy to operate. The patented biodegradable foam is made from 100% organic materials making it completely safe for use in all outdoor spaces including sensitive environments. Foamstream requires 50% fewer treatment cycles than alternative solutions, with a far smaller labour investment, and has an impressive 95% kill rate with lasting results.

Snow Removal

Take on winter with the ultimate snow fleet

TORO Groundsmaster 7210 PolarTrac

The Toro Polar Trac System transforms the Groundsmaster 7210 into a powerful snow removal machine. The patented Polar Trac System is ready for all winter conditions with its heated hard cab, innovative rubber track system and quick-connect attachments. With its zero turn radius capabilities, you can remove snow from the tightest areas.

Toro Groundsmaster® 3310 with Snowthrower/blower

VENTRAC 4500 & SSV

With numerous snow clearing attachments & accessories, Ventrac offers solutions to satisfy all your snow and ice management needs. The SSV Sidewalk Snow Vehicle's industry-first compact 36" width makes it your most efficient way to clean sidewalks and other tight areas.
